Use Cases

- Legal Teams
- Procurement
- Sales
- Finance
- Vendor Management
- Operations

AI Capabilities

**Clause Analysis AI**

Flags risky clauses, summarizes terms, and suggests alternatives instantly

**AI Obligation Tracker**

Track obligations, identify risks, and stay compliant with AI-powered monitoring.

**Workflow Automation**

Tracks deliverables and deadlines in real-time alerts before any occurs

Core Features

**Centralized Contract Repository**

All contracts stored securely in SharePoint with metadata tagging, version history, and fast full-text search.

**Automated Approval Workflows**

Multi-level, condition-based routing to legal, finance, and management approve directly from Outlook or Teams.

**Redlining & Collaboration**

Co-author and redline in MS Word with tracked changes, comments, and full audit trail across all stakeholders.

**Renewal & Expiry Alerts**

Configurable proactive alerts for renewals, expirations, and milestone obligations never miss a deadline again.

**Contract Templates**

Standardized templates for NDAs, MSAs, SOWs, and vendor contracts to speed up drafting with zero errors.

**Draft Comparison**

Automatically compare contract versions side-by-side to spot changes, differences, and potential issues at a glance.

**Analytics & Dashboards**

Real-time insights on contract status, cycle times, compliance rates, and team performance via Power BI.

**E-Signature Integration**

Native integration with DocuSign and Adobe Sign send, track, and store signed contracts without leaving M365.

**AI Clause Summary**

Instantly review lengthy contract clauses and get simple, easy-to-understand summaries that highlight important terms.

**Contract Compliance**

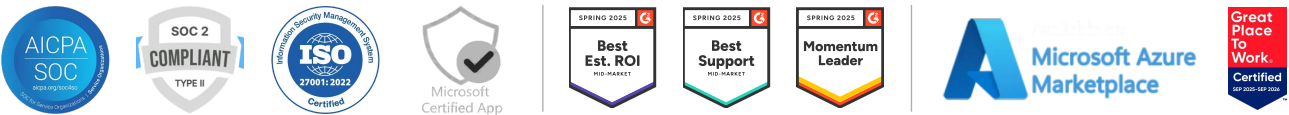

Monitor contract obligations, deadlines, and requirements to maintain compliance and avoid costly breaches.

Customer Voice

“CLM 365 helped us transition from a folder-based document repository to a structured contract management system. Contracts are now easier to organize, search, and manage, while standardized processes have significantly improved consistency across our organization.”

– IT Specialist, Arianna 2001 S.p.A., Italy
