Enterprises

**AI Performance Insights**
Surfaces trends and recommends focus areas based on goal and feedback data

**Automated Tracking**
Goal milestones and feedback cycles update automatically less admin, more meaningful conversations

**Smart Review Templates**
AI-assisted, customizable review templates adapt to role, team, & evaluation cycle automatically

Core Features

**Smart Goal Setting**
Set and track individual, team, or organizational goals directly within Teams or Outlook.

**KPI & KRA Result Tracking**
Define clear, measurable Key Result Areas to keep employee performance aligned with company objectives.

**Continuous Feedback**
Real-time feedback exchange between managers and employees, address concerns early, celebrate wins instantly.

**1:1 Meeting Management**
Schedule, run, and document impactful one-on-ones with structured agendas and follow-up tracking.

**Custom Review Templates**
Build flexible evaluation forms, approval flows, and review cycles tailored to your organizational structure.

**Skills & Competency Tracking**
Evaluate and track employee skills to ensure job readiness and identify development opportunities.

**Self - Assessment Tools**
Employees reflect on accomplishments and growth areas building ownership into the review process.

**Confidential & Secure Storgae**
Sensitive performance data protected with role-based access and Microsoft 365's compliance standards.

Key Benefits

- Replace once-a-year reviews with continuous, real-time feedback that drives ongoing improvement
- No separate logins or platforms performance management happens inside tools your team already uses
- All performance data stays secure within Microsoft 365 role-based access and compliance built-in
- Deploy in under 10 minutes scales from 10-person teams to thousands of employees
- Custom workflows define evaluation steps, approval flows, and review cycles to match your structure
- GCC & GCC High certified for US Federal government organizations
