Use Cases

- Talent Acquisition Teams
- HR Departments
- Multi-Location Enterprises
- High-Volume Hiring Teams
- Hiring Managers
- Recruitment Agencies

AI & Automation Capabilities

 AI Resume Screening Scans and scores resumes against role requirements in minutes, not weeks of manual review	 AI Candidate Matching Automatically identify duplicate job applications submitted by the same candidate and prevent them from applying for the same position more than once.	 Smart Interview Scheduling Auto-syncs with Outlook calendars eliminates double-booking and scheduling back-and-forth
--	--	--

Core Features

 Multi-Platform Job Posting Share openings internally and externally across job boards to reach a wider, more diverse talent pool.	 Applicant Tracking System Real-time visibility into every candidate's stage - from application to offer - in one unified pipeline.
 Role-Specific Interview Kits Access tailored interview questions for each role to make interviews faster and more consistent.	 Custom Application Forms Build unlimited custom forms tailored to each role's hiring needs - collect exactly what you need.
 Collaborative Candidate Review Hiring managers and interviewers comment, and share feedback instantly through email	 Recruitment Analytics Power BI dashboards reveal time-to-hire, source effectiveness, and pipeline bottlenecks at a glance.
 Automated Communication Candidates receive timely status updates and reminders automatically - improving candidate experience.	 Bias-Free Hiring Reports Straight reports help managers identify bias patterns and create more equitable hiring outcomes.

Key Benefits

- Improve hiring efficiency by up to 40% with AI-driven automation across the entire pipeline (McKinsey)
- Cut time-to-hire by 30% or more — candidates expect faster decisions and RM 365 delivers them
- All hiring data stays within Microsoft 365 — enterprise-grade security and Azure compliance
- No new logins or platforms - your team signs in with the same Microsoft credentials they already use
- GCC & GCC High certified for US Federal government organizations
- Scales from small teams to high-volume, multi-department enterprise hiring

Integrations

- Microsoft Teams
- SharePoint
- Outlook
- QuickBooks
- OneDrive
- Power Automate
- Microsoft Copilot
- Azure AD
- Job Boards External
