Core Features

**Multi-Project Tracking**
Monitor tasks across departments, projects, and teams with custom fields, dependencies, and milestones.

**AI Copilot Assistance**
Get intelligent summaries, suggested next steps, and workload insights right inside your task view.

**Automated Reminders**
Smart notifications in Teams and Outlook keep assignees on track without manual follow-ups.

**Centralized Dashboards**
Managers see tasks across projects, departments, and teams in one consolidated, real-time view.

**Microsoft Planner Integration**
Sync seamlessly with Planner for unified task and project execution across your Microsoft ecosystem.

**Executive Reporting**
Leadership gets instant visibility into performance, bottlenecks, and team productivity trends.

**Custom Fields & Workflows**
Add any custom field, build dependencies, and tailor workflows to match how your team actually works.

**Enterprise-Grade Security**
Fortune 500-level security with role-based access, compliance standards, and encrypted data storage.

Key Benefits

- Recover up to 30% of time lost to manual task coordination and status-chasing (Gartner)
- AI handles repetitive task creation and prioritization, freeing teams for meaningful work
- All task data stays within Microsoft 365 — Fortune 500-grade security and compliance
- Scales from 5-person teams without a project manager to enterprises with thousands of employees
- Quick, simple setup — import tasks from your existing SharePoint task list in minutes
- Switch between List, Board, Calendar, and Timeline views without losing context
